### DETAILED ACTION

Applicants' amendments filed 5/31/07 which amends claims 59 and 61-62 (before "Appeal brief" filed 5/6/08), and cancels claims 1-58, 60 and 63-69 has been entered. The applicants' request filed 5/6/08 for extension of time of three months has been entered. Claims 59, 61-62 and 70 are examined in this Office action.

### EXAMINER'S AMENDMENT

An Examiner's Amendment to the record appears below. Should the change and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than payment of the Issue Fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Steven L. Highlander on 7/7/08. Applicants agree the Examiner proposed amendment to claims 59 and 70.

#### Amendments to the specification:

Change the title of this invention to: "Methods relating to muscle selective calcineurin interactive protein (MCIP)".

#### Amendments to the claim:

Rewrite Claim 59 as (*Amended*): A method of modulating muscle cell growth in striated muscle cells in a human subject comprising:

- (a) identifying a human subject in need of striated muscle cell growth modulation;
- (b) ~~selecting a small molecule for its ability to modulate~~ assaying a small molecule for its ability to modulate Muscle Selective Calcineurin Interacting Protein (MCIP1) expression; and
- (c) administering said small molecule which is shown to modulate MCIP1 expression in step (b) to said human subject,

whereby administration of said ~~modulator small molecule~~ results in modulation of striated muscle cell growth by modulating said MCIP1 expression in said human subject.

Rewrite Claim 70 as (*Amended*): The method of claim 59, further comprising administering to said human subject a ~~second~~ pharmaceutical agent used to treat cardiac disease.

Art Unit: 1656

The following is an examiner's statement of reasons for allowance:

The rejections under 35 USC 102(b) of (i) claims 59, 62 and 70 by Sussman et al.; (ii) claims 59, 61 and 70 by Cavazza C.; (iii) claims 59 and 62 by Lanza et al.; (iv) claims 59, 62 and 70 by Selawry et al. are withdrawn in light of the amended claim 59 and dependent claims therefrom are directed to a method of modulating striated muscle cell growth in a human comprising steps of identifying said human subject in need, and assaying for a small molecule capable of modulating MCIP1 expression wherein the modulation of MCIP expression in said "assaying" is not considered here to be a mechanistic step but rather an actual step required necessary for the claimed method. None of references (i)-(iv) teaches the method's steps thereof. The rejection under 35 USC 103(a) of claims 59, 61 and 62 by Chin et al. is withdrawn similarly in light of how Chin et al. do not teach or suggest the steps of the claimed method as discussed above. Also, the rejection under 35 USC 112, second paragraph, of claims 59, 61-62 and 70 is withdrawn in light of that the metes and bounds of "small molecule" are not ambiguous in the relative art, and in light of that the above amendment of claim 70 obviates the indefiniteness rejection of "a second pharmaceutical agent".

Therefore, claims 59, 61-62 and 70 are allowed.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
